"Whereas, the important legislation now pending before the extra session," etc. And the clark in copying the clause makes it read "litigation" instead of "legislation." This may be vital to the immediate effect of the law.

Every woman loves to think of the time when a soft little body, all her own, will nestle in her bosom, fully satisfying the yearning which lies in the heart of every good woman. But yet there is a black cloud hovering about the pretty picture in her mind which fills her with terror. The dread of childbirth takes away much of the Joy of motherhood. And yet it need not be so. For sometime there has been upon the market, well-known and recommended by physicians, a
